

Ethics Statement - FUND-FOP-047

Golden Ratio ϕ , e , and Fine Structure Constant : Collapse Breathing Proportions

Publication Ethics Declaration

We, the authors of this manuscript, hereby confirm that this submission complies with all ethical standards and publication requirements of Foundations of Physics and Springer Nature.

Originality Statement

We confirm that:

- This manuscript represents original work that has not been published elsewhere and is not currently under consideration by another journal.
- All data, mathematical derivations, and conclusions presented in this paper are the result of our original research.
- All sources used in this research have been properly cited and acknowledged.
- The manuscript does not contain any plagiarized material.

Authorship Declaration

We confirm that:

- All listed authors have made substantial contributions to the conception, design, analysis, and interpretation of the research.
- All authors have been involved in drafting or revising the manuscript critically for important intellectual content.
- All authors have approved the final version for submission and publication.
- All authors agree to be accountable for all aspects of the work.

Research Ethics

We confirm that:

- This research is theoretical in nature and does not involve human subjects, animals, or biological materials.
- No ethical approval was required for conducting this research.
- The research was conducted in accordance with the highest standards of research integrity.

Data and Code Availability

We confirm that:

- All numerical simulations and calculations reported in this paper can be reproduced based on the methodological descriptions provided.

- Source code for key numerical verifications will be made available upon reasonable request.
- High-precision numerical results are reported with appropriate error bounds.

Adherence to Journal Policies

We confirm that:

- We have read and understood the journal's policies on publication ethics.
- The manuscript has been prepared in accordance with the journal's submission guidelines.
- We will cooperate fully with any inquiry from the journal editors regarding any aspect of this submission.
