

Funding Statement

Grant Support

This research was supported by AELF PTE LTD. through the Advanced Spacetime Research Initiative (Grant No. ASRI-2025-001). The grant provided funding for computational resources, personnel time, and publication costs.

Institutional Support

Additional computational resources were provided by: - AELF Foundation High-Performance Computing Facility - Singapore National Supercomputing Center (access granted through competitive allocation)

Individual Support

H.M. acknowledges support from the Quantum Gravity Fellowship program at AELF PTE LTD.

W.N. acknowledges partial support from the Digital Cosmos Research Grant (DCRG-2024-18).

Disclaimer

The funders had no role in study design, data collection and analysis, decision to publish, or preparation of the manuscript.

Open Access

Funding for open access publication fees has been provided by AELF PTE LTD. under the Open Science Initiative.
